*Don't let your child suffer through another academic year.*

## Failure Is Not An Option

ring the student remains energized. Every session begins with a high energy meeting to set the stage for a creative, fun learning session. We believe that all children can learn and we make it happen. Discipline is a fundamental lifelong skill. We will gradually move the student from imposed-discipline to self-discipline. When self-discipline is achieved, the student has learned the lifelong skill that transcends every aspect of living.

## Academic Mentoring Services

Our mentoring services take each student through a planned instructional sequence. We mentor students to success. Each student is taught at a level and pace to their understanding and comprehension.

### Services include:

- Higher math, science, reading and writing standards
- Challenging problem solving skills
- Accurate assessment to measure student progress
- Competent and inspired mentors
- Continuous review until mastery
- Supportive reward system
- High Energy

*If You Don't Call, We Can't Help!*
